AMENDMENT

Dear Sir:

In response to the Office Action mailed March 29, 2002, please enter this
amendment and consider the following remarks.

IN THE CLAIMS

68. (Amended) A method of using an embedded codestream comprising:
identifying a target device to receive data in the embedded codestream; and
decoding each bit-plane to provide data to the target device by truncating each bit-
plane in the embedded codestream for data necessary to support the target device.

72. (Amended) The method defined in Claim 68 wherein each bit-plane is
truncated based on one of a plurality of indications in each coding unit denoting where
